

HOW TO ENTER AN ANGELS GAME AT ANGEL STADIUM

Avoid connectivity issues at the stadium by saving tickets to your Apple Wallet by clicking the options button.

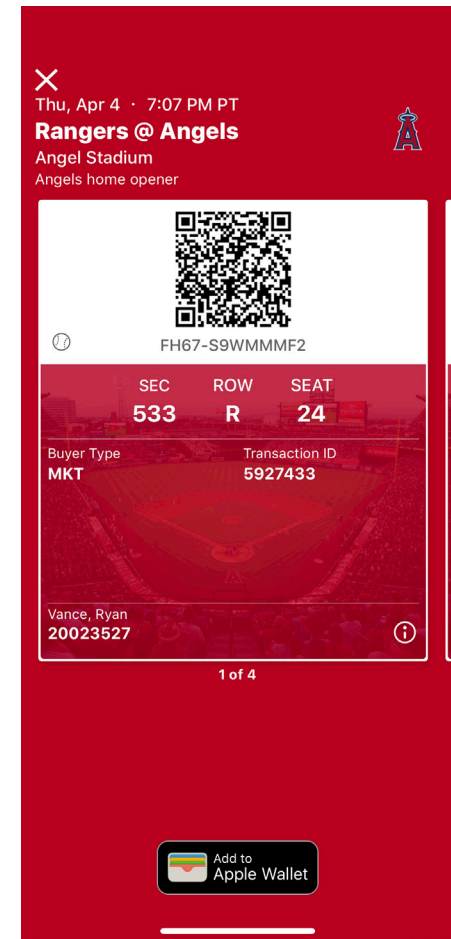

Ready to enter Angel Stadium? Simply have the Ballpark app open, pull up your ticket barcode for that day's game and present it to the gate attendant to be scanned.

If you're entering with a group, you have the option to scan multiple tickets on one device, or forward tickets to your group in advance to be scanned via the Ballpark app on their devices.

Having issues scanning in? Be sure to adjust your screen's brightness and watch out for glares from lights or the sun, both of which may prevent your mobile ticket from scanning properly.

Making your way to your seats at Angel Stadium? Simply show your usher your mobile ticket on the Ballpark app to be directed to your seat.

Note: If you have both the Ballpark app as well as a printed ticket for the same seat, the first ticket scanned is the only one that will allow entry into Angel Stadium. Once a ticket has been scanned, it cannot be forwarded.

For any additional questions, please call 714-4-ANGELS.
